I am a retired professional community worker with over 30 years experience working in community development and social action. I have a proven track record in team working WITH people and advocating FOR people, when required.

My passions include;

Promoting all that is good in the town and county at every opportunity

Involving and including young people and meeting them where they are to enable them to be a powerful part of their community and creating the positive future we all desire

Challenging negativity robustly, helping to turn people's passion into positive outcomes for the community, town and environment

Commitment to small business, venues, the arts and activities and a passion for using my own resources and energy in a way that supports the local economy wherever possible

Staying passionately INDEPENDENT

I want to know what matters to the people of St Boisil, work in partnership with you and do everything we can to ensure your voices and needs are represented – carol.alderton@hotmail.co.uk
